THE DERBY STORY

In the beginning Derby of Sweden made shirts. Then we added our incorporated bags. Now it's time to start a new chapter. May we present Derby of Sweden Bags 3.0! Our goal with this new collection of bags is to provide you with nice bags suited for all occasions. To reach the best possible range, we had some specific guidelines:

- Competitive prices
 - Good quality and reliable details
 - High stock balance
 - Large printable areas
 - Multiple colour range
-
- Measurements are always written width x depth x height cm. Volume is estimated as close as possible.
 - The pictures in the catalogue and the actual products may differ slightly in colour due to the methods of photography and printing used. To make sure the colour matches your expectations, we recommend you to look at a physical sample.

We are very satisfied with the result of our Derby of Sweden Bags 3.0 and our hope is that you will enjoy this collection as much as we liked to create it! The bags are designed in Sweden and produced in China..

SPIRIT

“When producing this bag we used fabric made of recycled polyester yarn. The yarn is made of post-consumer PET bottles.”

Post-consumer PET bottles are shredded into flakes and melted into pellets.

The pellets are extruded into polyester yarn...

...and fabric is made from this recycled polyester yarn.

This fabric is used for producing the bags in our R PET Spirit Collection!
